CHOM OUR NEW YORK CORRESPONDENT.

NEW YORK, Monday, Aug. 9th. The appearance of the cholera upon our western borders may possibly stir up our city authori-ties to some more energy and vigilance than usual a preparing this populous and dirty city to meet the approach of the destroyer in his course hith-erward. But the aumouncement of the cholera has lost the terror which, on the first appearance he paid them off for this support by Veroing their add that the first number of the "Stimme," or of the tell disease, accompanied its progress; not River and Harbor Bills ! คะ บอดี treatment or its cause than at first, but because

use accustoms us to all things.
The City is, as a matter of fact, marvellously healthy, considering how filthy are its streets and avenues-how crowded its boarding houses for annigrants and strangers, and how abounding corn, green apples, molons brought by steam from the South, and which have been fer menting for days perhaps in the sun-and cucumbers, cartad about by the load. No police regulations can restrain, or, perhaps, should attempt to restrain the sale of such commodities, and no sautions, however emphatically reiterated, can prevent children of smaller and larger growth from indulging their appetites, at the hazard 'even of death. The number of our citizens absent on tours of pleasure and at watering places, is very large—but the number of travelling and transient persons at our hotels and boarding houses, is probubly still larger—so that although an accustomed eye may discern the difference and strangeness of the faces met in our great thoroughfares, it will not discern any difference in the number of

We have the Pacific (Collins' steamer) back nonin with her wonted punctuality, on Sunday, The European news is of little account just now. The election for the new Parliament in England seems to give the Derby-D'Israeli ministry a small majority, but that concerns us little, for we have nothing to expect as a nation, from that quarter—the the Loce Foce party and its candidate Gen. Pierce, are especially in favor with that portion of the British people and government, and are openly recognized as "very useful and imporolitical affice." in carrying out the policy England. It must certainly be quite agreeable and polatable to Americans, who believe really that their country ought to be and setually is independent, and has a policy of her own to pursue to find from the great newspaper of the world, the London Times, that their success at the next. Fresidential election, and that of their candidates is deserved, not because the prosperity of America may thereby be promoted, but the prosperity and policy of England. It must, one would doubtless readily believe, be extremely grateful to the ten thousands of Irishmen, who have fled to the U.S. for refuge against the grinding oppresshousef British government at home-to be called upon to cloct by their votes to the Presidential chair, Mr. FRANKLIN PIERCE, as a "valuable ally" to rich very government whose oppression drove them from their homes. Reflecting men can reacity perceive why the English press, and English componers in America, and English interests every where, are enlisted for Franklin Pierce and Win, R. King-for they are the candidates of a party which favors British industry at the expense of American industry-which by its fraudulen system of advalurem duties puts a premium upor perjury, and thus discourages American honesty and integrity—and which, by making the federal povernment a barron negative instead of an active agency for good, cripples the great rival of Eng-

and, and leaves her policy mistress of the world It is this Derby—D'Israeli Cabinet which has ventured to determine for itself, and by a parade of arned squadrons, the very questionable claim, and exclude our fishermen from the waters bordering on Nova Scotia and Labrador-and it is and an unfair and violent presumption that the same set of politicians would greatly prefer Frank-lin Pierce to deal with as President, to Winfield Scott, who, in times past, gave the Britons " touch of his quality," and in whom advancing Poor pay for poor preach (

Certainly I do not think so ill of Mr. Pierce, nor indeed of any American, as to suppose that he would, if entrusted with high power, abuse it to the detriment of his country; but I have the most undoubting conviction, and in that conviction I am persuaded the immense majority of the American people would share—that if a question of na-tional honor were to be discussed, or a display of national power to be made, to the hands of Wix-FIELD Scott, and not to the hands of Franklin Pierce, would the people of these United States entrust the responsibility in both cases. In this State I am sure it is so; and with WINFIELD SCOTT for the Presidency, and Washington Hunt for Governor, (and much as he is averse to the office, he must, for the public good, be made the candidate,) we shall succeed by a great and telling majority; and so it will be in the two other great States, Pennsylvania and Ohio, and there will be no lack of others to make up the grand total.

Mr. Webster's course grieves and disappoints those who have given him credit for earnestness of principle. His sulkiness—it is a coarse word, or principle. The satisfaces—to is a course word, but it ruly expresses the fact—about Gen. Scott's nomination, is, in every view, even more insulting to the Whig party than discreditable to him-As though that party belonged to him, and at his beck was to speak or be silent. Oertainly Mr. Webster has done grand service to his country through the Whig party and by its aid, passport and favor; but he did such service, not for hirenot for reward—not for office—but because duty and principle pointed the way, and he satisfied both his conscience and his love of country by doing what he did. But now, forecoth, we are told that the country, and the Whig party in particular, are "degraded" by rejecting Mr. Webster as a candidate, and taking up Gen. Scorr Think of that ! Think of a country being deraded by making a candidate of a man, as pure moral character as the driven snow-against shose personal conduct or pecuniary indepenwere crowned with a succession of brilliant victories—preeminently the result of his personal qualities, genius, and skill—whose study has been of the Constitution and Laws of his countrywhose polar star in peace and in war, is the su-premacy of that Constitution and those Laws— who has lived for more than forty years before the public, the right arm of every administration for the greater part of that time in every pressing mergency that required for its solution the comination of the Soldier and the Statesman!think of any man venturing to say, of the nomnation of such a candidate—that it is a degreda-

ion to the United States!

GEN. PIERCE.—It has been a matter of ancident that the nomineo for the Presidency is less known in the West than in any other part of the Union. His name was not new in the Convention to gentlemen of the South—that name, Frank Pierce, lad a poignancy of force with the South, like the beams of the North star. (!)—Minesola Pioneer.

We do not deny that Mr. Pience is much better known to the South than in the West. There is good tersen why he should be. Mr. PIERCE, during his brief Congressional career, was "as true to the rights of the South as Mr. Calnous himself."a, at least, testifies the Richmond Examiner .-But Mr. Prence manifested no such devotion to the interests of the West. On the contrary, he voted against every River and Harbor Bill that came before Congress while he was a Member, even including those which Gen. Jackson signed.— It is no marrel therefore, that the South knows nore and thinks better of Mr. Pience, than the

West does. Nevertheless the Pioneer comforts its readers nown to the Westas Mr Polk was. "It turndout," says the Pioneer, " that the people knew who Pork was and Preson's name is no less a name than his." Begging the Pioneer's pardon, little about him and what they did know was'nt very encouraging. He had always shown himsolf in Congress an enemy to Western Interests and Internal Improvements, and the Whigs pre-dicted that he would continue this course, if elected President. On the other hand, the Democratic orators and organs, then as now, insisted that their candidate was the true friend of the West

monosyllabic. Like Polk's too, it is comparative unknown in the West. The Democratic papers, aware of this fact, appeal to the People to "go lit blind" in support of Pience, for party's sake, and venture to remind them that they did as and venture to remind them that they did as and venture to remind them that they did as a theart no friends of the true interests of the west. it blind" in support of Pience, for party's sake, and venture to remind them that they did as much for Pole, whom they knew no better. We necept the comparison thus instituted. We too appeal to the People to remember 1844 and the results of that contest. Then as now, they were invited to take a comparatively unknown and undistinguished man upon trust. The People of the West did so, and found, to their correct that the West did so, and found, to their sorrow, that smaller edition of the Polk Administration? If when you won't show them the vote. ustain Winfield Scott! Afraid to Publish the Vote!

We have twice published the Yeas and Nays in the House upon the River and Harbor Bill; and effectionately invited our Loco Foco contemporaries to do the same, that the People of the West may learn, from the record, who are their friends and who their enemies. But not a single demo-eratic paper in this State has yet published, or dares to publish that vote. They tell their readers, indeed, that the bill has been passed by a Democratic House, but they carefully suppress the fact that it was passed by Wing rotes, with more than two-thirds of the Democratic Members, lodging or voting against it. Especially do they ouceal the significant circumstance that both the Democratic Representatives from New Hamphirs, Mr. Pience's own State, who undoubtedly reflect Mr. Pierce's sentiments on this question, FOTED PLUMP AGAINST THE BILL! Are not these signs" conclusive ? Even he who runs may ead in them incontestable evidence of Mr. PIERCE'S hostility to Rivers and Harbors. MEN OF THE WEST! Be warned in season. Put not your trust in these who, for party's sake, stand endy to sacrifice your most important interests!

A THUNDERES IN THE FIELD.—Mr. L. P. CRARY. rmerly of this city, has been addressing the Pierce men at Oshkosh. He was received, says the Courier, "with thundering applause," and made, no doubt, a "thundering" speech; that being his favorite style of oratory. The Courier adds that be demolished the Tariff, refuted the charge that the democracy was opposed to River and Harber Improvements, and performed other oratorical miracles. It closes its notice thus:

We understand that Mr. Crary has received in-vitations from saveral parts of the State, to address the democracy. We hope he will comply, for his hiriling eloquence will cut deep into the ranks of the enemy.

We loo hope these "invitations" will be accepted w Mr. CRARY. So far as " the ranks of the onmy" i. e. the Scorr men, are concerned, he quite welcome to "cut and come again."

Covernment Expenditures.

The News of Friday last represented the Govmment expenditures for the fiscal year just closd to be Fifty Millions of Dollars, and affected to hold the Whigs, who are powerless in Congress, responsible for this extravagant expenditure.-Here is the official statement of the receipts and expenditures for the past year, as published in the Y. Tribuns of the 10th inst:

It will be seen, in the first place, that the News vas wrong as to its facts; having erapgerated the annual expenditures of the Government about four and a quarter millions of dollars. It is to be observed, in the second place, that the receipts exceed the expenditures a trifle over four millions of dollars; not a had balance sheet. It is to be remarked, in the third place, that included in these expenditures, are six millions for the Public Debt, bequest of the Polk Administration, and five or six millions more for expenses of collecting the Customs, and carrying on the Post Office Department, formerly kept out of the Treasury account, ed—whose young blood was spilled on the battle and Post Office receipts. Add to these corrections the fact, that the Loco Foca party is and and deducted directly from the Custom House tions the fact, that the Loco Foco party is, and has been, throughout Mr. Fillnorg's Administration, predominant in both Houses of Congress, and had the power to reduce the annual expendi tures as much as they pleased, and the public will readily discover that our imaginative neighbor of the News has been as unfortunate in its interences

as it is unlucky in its facts. CANDIDATES FOR CONGRESS.—The "democracy of Columbia County recommend John Delany a suitable candidate for Congress from the Third District, whereupon Mr. Delany takes off his har-thus, in the last River Times:

eganization of this company, and the letting of the contracts from Milton to Janesville, the people of Green Co., and beyond, are getting in earnest in their subscriptions of stock to its funds. It is bound to go ahead, since it passes through a fertile country, for which our city furnishes the nearest and best market. We find also that the Dubuque people see in the enterprize the most feasible mode of reaching Lake Michigan, and with the reminiscence that Mr. Primer is as well are ready to welcome the road to the Mississippi By this means all of the interests in the southern portion of our State will be accommodated, and

our city be greatly benefited and prospered. It strikes us that our Dane Co., friends are not doing all that they might to bring the Milwankee the West took Mr. Pork upon trust, as they are now invited to take Mr. Prace. They knew but It would be strange enough if the Green County people should take hold of the subscriptions so arnestly as to obtain a Railroad connection with the Lake before Madison.

The Polksfreund, the' it is too proud to "exchange" with the "Stimme der Wahrheit," condescends to pay perticular attention to it. A column or more is devoted to the subject in both Friday's and Saturday's issues. It's plain to see where " the shoe pinches."

For the gratification of the Volksfreund we will "Stinger," as some of the Scott boys translate it,

A l'esple's Convention.

We published in an Extra the 7th inst., a Call for a Mass Convention without distinction of party to be held at Jane-ville, August 25th, for the purpose of monitaring suitable candidates for Judges of the Supreme Court; and which appears to-day in our columns. This call is numerously signed, and by men of all parties; and indiging from the general dissatisfaction with the nominations of the Madison Convention, we can safely say, that there are not twenty in an in this county, who would have refused their aid to a measure, to bring out and unite upon proper candidates for these offices. We observe that the call is published in the Milwaukee Sentinel, in what other manner the opinion of the people throughout the State, can be ascertained, and concentrated upon three candidates, when there are already tem names stargested, and will undoubtedly be several more? It is true, that public opinion in every section of the State, has settled upon Edward V. Whiton us the man for Chief Justice, and he would be voted for and elected without any formal nomination. But how can the two Associates be generally agreed upon without a Convention, when the preferences of different sections of the State are so various; for we already hear proposed the names of Judge Dunn and B. C. Eastman of the West, Marshall M. Strong of Racine, John H. Tweedy, James S. Brown and Mr. Randall of Milwaukee, and Gov. Doty, M. L. Martin and Mr. Shafter of the North, From the expressions of opinion we have heard, we judge that a selection of two from the four first above named, would be preferred in this section; but other sections have different preferences and not, in our opinion, be harmonized without a Convention; and a Barnohized section of the State and the preferences and not, i We published in an Extra the 7th inst., a Call

Gen. Pierce Ornosed to Rewarding the Old Indian Fightess:

If Gen. Pierce has done but little, he has represented to do a great deal. He voted against River and Harbor Improvements—against a Protective Tariff—against paying the widow of Gen. Harrison the remnant of his first years' salary, or extending to her the franking privilege—against granting pensions to the widows of Old Soldiers—and against pensioning the old men who fought the Indians subsequent to the Revolution. The following is the record, as cited by the Cincinnations.

Indians subsequent to this Revolution. The following is the record, as cited by the Cincinnation of the 1044th page of the House Journal, 1st session 54th Congress, June 18, 1838, we find the following record:

"An engrossed bill (No. 212.) entitled An act extending the provisions of the act entitled an act supplementary to the act for the relief of certain orders and soldiers of the Revolution," was read a third time, and being on its passage.

A motion was made by Mr. Williams, of North Carolina, that the said bill be recommitted to the committee of the whole House, with instructions to strike our provisions which grant a pension to those persons the wave sugaged in the Indian hostilities of the West, subsequently to the Revolutionary war, terminating in 1723.

Upon this amendment the previous question was called, the effect of which, if sustained, was to cert off the amendment. Franklin Pierce voted in a minority, 66 to 59, against sustaining the previous question, and therefore, in effect, in favor of the amendment to strike out the previsions granting pensions to the old Indian fighters of the 17cs.

Correspondence of the N. Y. Tribuns. WISCONSIN--A Working Woman on Country Life.

Hericon. Thursday, July 20, 1852.

In this day of Women's Rights, and Women's Rights Conventions, I thought I would take the liberty to address a few times to the Tilhaca, in answer to an article from C. D., on "The Tendency of Population to the City—its Causes." C. D. must be grastly ignorant of country life, I think, from the description he gives of a farmer's, or, or, least, of life in Wisconsin. I think there are very few that are savey enough to rise before the sun, and if his hands do grow hard, that is no sign that "his manners are uncouth, or his mind uncultivated."

If C. D. would come to Wisconsin and see our fields of wheat modding vellow heads invitingly to the larvest-men, our tall corn, our heds of tich garden vegetables, our fat, contented hogs and cartle, and our focks of hens and turkeys, he would think a farmer might contrive to exist, in spite "of the plainness of his homespun" suit.

After having held up his scatterew of a farmer, to frighten people from the country, he paints out a city cierk, with "glinering appendages and graceful manners." and takes him for a decoy pigeon, to have the to the city.

Perhaps C. D. does not know how much better health a person can enjoy in the country than in the city. He does not tell us how the pale dys-Horicon, Thursday, July 29, 1852.

Perhaps C. D. does not know how much better health a person can enjoy in the country than in the city. He does not tell us how the pale dyspeptical clerk turns away with a sickening stomach, from "the table loaded with lexuries"; or how, and the smoke and heat and dust of the city, he closes his aching ever, and wishes himself among the shady groves, the green hills, and cool springs of the country.

"Then as to the respective condition of the women."

The collections of opinion we have heard, we just that asketted of two from the form we just that a salection of two from the form allowe manned, would be preferred in this section; but other sections have different preferences, and these preferences can not, in our opinion, be harmonized without a Convention; and a People's Convention is the best mode of selecting enablates for Judicial offices. We so for this Convention decidedly.—Kinsche Tribina.

Our reasons for objecting to the machinery of a Convention to monimate Candidates for Judges, have been heretofore briefly stated. We are neverteless free to admit that the vast importance of selecting fit men for the Supreme Rench of the State, and the difficulty of concentrating the opposition to the present party ticket upon other and worthier nominations, except by means of a Convention, are very strong arguments in favor of the measure. Of the two Conventions proposed to be held for this purpose, however, withink the Delegate Convention mere likely to see ourse a satisfactory result than a Mass Convention; all parts of the State being reportionately represented in the former, but not in the latter.

Ho! for the country.-If any of our readers ave in possession, or can obtain, some \$4500 or \$5000 or thereabouts, or if they know anybody who has such a sum which he would like to inest in a fine farm, the advertisement in our colimme of the property in Walworth Co is commended to their attention. It is in a fine, fertile region near a plank road, and on the old Janesville toad from this city. The farm is well fenced all around, has 60 acres of timber, and the fields are now numbered with abundant crops. The house is next and well shaded. There is a good barn, lots of fruit nees just coming into bearing, a garden with its treasures well cared for, a stream at hand where the occupant can get fresh fish at any time, and the place is well stocked with every implement needed. Altogether, it seems just such a place as a great many of our readers would like to own and we hope that some of them will purchase its and six down under their own vine and figtree, and thank us for calling their attention to the chance.

WESTMINISTER REVIEW FOR JULY. LEONARD SCOTT & CO. 79 FURON 41. N. Y. The number before us is one of the best of this popular Review that has fallen under our notice. In making the true remark that any one of its articles is worth the price of the number, we say very little. Among the most interesting papers are those entitled : England's Porgotten Wortnes, Lord Jeffres and the Edinburg Review, The Lady Novelists, The Restoration of Belief, and three upon Contemporary Literature in England, America, and Germany. In the course of the article upon Literature in America, appears a very fair and just notice of Mrs. Stowe's book, Uncle Tom's Cabin, and of other lately published works.

We would respectfully call the attention of on many friends, and the public generally, to an in-strument we have recently imported from Paris, called a "Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and interringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this inguitous contrivance, this very great amonyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the impression of their head; and all those who take pleasure in witnessing the inventions of this curious instrument.

Having adopted the Casu System (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of \$4.25; surpassing any \$5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assumance, they are all we recommend them to be. we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see use.
